

Flexidams

Made from tough, flexible PVC and with a flotation collar, the Flexidam is completely self supporting and ready for immediate deployment for the containment of water, foam concentrates, chemical spillage waste and much more.

The Flexidam is popular with firefighters and foresters around the world. Robust and reliable, quick and simple, the Flexidam can be supplied to match your existing equipment.

Advantages

- Strong, flexible, self supporting, versatile and easy to deploy
- Folded compactly for easy storage and transport
- Water levelling pad available for uneven terrain deployment
- Protective holdall supplied as standard
- Excellent resistance to extreme weather conditions, abrasion, corrosion and long term standing use
- Sizes range from 1000 litres to 450,000 litres and beyond, available upon request
- Draining is achieved quickly and easily via gravity flow
- Ready for immediate deployment when leaving our manufacturing facility

Applications

- Emergency water
- Remote storage
- Foam concentrates
- Chemical waste
- Fertilisers

Capacity (Litres)	Upper Diameter (m)	Lower Diameter (m)	Height (m)	Packed Dimensions (m)	Packed Weight (kg)	Model Number
1000	0.8	1.0	1.5	0.70 × 0.35	16	SP1000FD
